NEWS FROM LATIN AMERICA AND THE CARIBBEAN

LACTLD Technical Workshop

In the framework of the NIC.CR Internet Week, LACTLD held its Technical Workshop. The same was attended by representatives of 14 ccTLDs, representatives of GOOGLE, LACNIC, (.cz) - KNOT, (Nlnet Labs) - NSD and NEUSTAR. Several themes were presented and discussed such as DNS Observatory, BIND Alternatives, KSK Rollover in Root Servers, FRED implementation, Nomulus project and Anycast among many others.

For those who were not able to attend, the Workshop was broadcast live and the videos are available at:

Link day 1: https://www.youtube.com/watch?v=uzi0S_OUjak
Link day 2: https://www.youtube.com/watch?v=gTJEe5s2gOk

LACTLD thanks the members of the Technical Group for their active participation in the planning and development of the workshop and to NIC.CR for all their help in carrying out a successful Technical Workshop.
Q2 2017 Report - DNS LAC Observatory

The LACNOG DNS Working Group presented the second quarter report 2017 on the state of Latin American and Caribbean domains and compliance with Internet standards, within the framework of the DNS Observatory LAC project:

The results of the report were obtained from the information of 449,863 domain names in the region and analyzed the state and the resilience of the Internet.

In December, the results of the annual report will be available and together with them, recommendations of uses and future public policies.

Seminar on Privacy and Protection of Personal Data Brazil

On September 18 and 19, in São Paulo, the Seminar on Privacy and Protection of Personal Data will take place, an event that CGI.br has done since 2010.

The event is based on the first principle of the Decalogue of the Internet: “The use of the Internet must be guided by the principles of freedom of expression, privacy of the individual and respect for human rights, recognizing them as fundamental for the preservation of a just and democratic society.”

Here details of some of the presenters: Danilo Doneda, Omar Kaminski, Jorge Stolfi, Amaro Moraes and Silva Neto, Marcel Leonardi, Carlos Affonso Pereira, Ronaldo Lemos, Leonardo Palhares, Yves Poullet, Marie Georges, Dave Russell, George Chatillon, Marcia Hoffman, Erick Iriarte, among others.

ARGENSIG

From August 29 to 31, the first Argentine School of Internet Governance took place in the city of Buenos Aires.

Following the successful experience of the South School of Internet Governance organized every year in different countries of Latin America and the Caribbean, CCAT LAT, ISOC Argentina and SSIG organized for the first time this space for training and dialogue in Argentina on Internet Governance.

The main objective of the Argentine School of Internet Governance is the training of the future leaders of Internet Governance in Argentina, in all aspects related to it, from a global perspective, with a national and regional focus.

During three days of intensive training, participants learned about Internet Governance, with a special focus on national and regional development, sustainable development goals, freedom of expression, cyber security, digital economy, the role of global organizations such as ICANN, ISOC, IETF, LAC IGF, IGF Internet Governance Forum, legal aspects of security and privacy, electronic commerce, new business opportunities, new technological challenges, digital content challenges, the digital divide and its consequences, among other topics.

Here the details: http://www.argensig.org/
eLAC2017 Santiago, Chile

From August 7 to 9, eLAC took place in Santiago, Chile. Representatives from Latin America and the Caribbean countries initiated the process of discussion of the new regional digital agenda, eLAC2020.

The Preparatory Meeting for the Sixth Ministerial Conference on the Information Society in Latin America and the Caribbean was inaugurated by Alicia Bárcena, Executive Secretary of the Economic Commission for Latin America and the Caribbean (ECLAC); Yolanda Martínez, Chief of the Digital Government Unit of Mexico’s Ministry of Public Administration; Juan Sebastián Rozo, Colombia’s Deputy General Minister of Information and Communications Technologies (ICTs); and Rodrigo Ramírez, Chile’s Telecommunications Undersecretary.

During the meeting participants evaluated the commitments made in the current digital agenda, known as eLAC2018, which proposed using digital technologies as instruments of sustainable development, and outline the areas of work and objectives of the eLAC2020 agenda, which will be approved during the Sixth Ministerial Conference, to be held on April 18-20, 2018 in Cartagena, Colombia.

The meeting included five debate panels on the issues of the role of digitalization and innovation in implementation of the 2030 Agenda, the regional digital market, data-based innovation, the industrial Internet and inclusive digital development, in addition to the discussion session regarding the eLAC2020 Digital Agenda.

WORLD WIDE NEWS

EE DNS Forum

The second Eastern European Domain Name System (DNS) Forum will be in Minsk, Belarus from 12-13 October.

This forum will be a unique platform for Internet industry experts and everyone who watches its evolution, with the objective of finding the best solutions for DNS industry and Internet in general: local practices, international experience and trends of the coming years.

The topics to be discussed are Internet security, DNS-abuse, blockchain, legal aspects and many others.

ICANN60 – ABU DHABI

Abu Dhabi, United Arab Emirates, will be the host city of ICANN60. The seven-day ICANN60 Annual General Meeting will be held from 28 October to 3 November 2017.

Here is the ICANN60 page for travel information (visa requirements, hotel, etc).

https://meetings.icann.org/en/abudhabi60

CENTR Statistics Report

DomainWire Global TLD Stat Report is CENTR’s quarterly publication covering status and trends in global top-level domains with a focus on European ccTLDs (country code top-level domains).

ITU ICT Facts and Figures 2017 Report

The ITU ICT Facts and Figures 2017 Report features end-2017 estimates for key telecommunication/ICT indicators, including data on mobile-cellular subscriptions, Internet use, fixed- and mobile-broadband services, household ICT access, and more. New data shows that young people are at the forefront of today’s information society: 830 million young people representing more than 80 per cent of the youth population in 104 countries are online. ITU data informs public and private-sector decision makers, and help ITU accomplish its mission: to make use of the full potential of ICTs for the achievement of the SDGs.
